

HUNTINGTON MEDICAL FOUNDATION

Neville Anderson, M.D.

SPECIALTY

Board certified in pediatrics

JOINED HMF

2006

EDUCATION/TRAINING

Residency & Internship
Childrens Hospital Los Angeles

M.D., School of Medicine & Dentistry
University of Rochester
Rochester, New York

B.A., Human Biology
Stanford University

SUMMARY OF EXPERIENCE

When Dr. Anderson was job hunting after her residency, HMF was actively looking for another pediatrician. She knew it was a great opportunity when her Childrens Hospital colleagues had nothing but high praise for the HMF Descanso office.

After college, Dr. Anderson was a teacher at Stanford's Bing Nursery School, which was helpful preparation for pediatrics. "I learned a lot about child development during those years," she says.

During college, she was a volunteer "buddy" to pediatric oncology patients, helped organize pediatric health fairs, taught parenting classes to teenage mothers, and read to kids in an early-literacy program.

- American Medical Association and the
- Los Angeles Pediatric Society

ON A PERSONAL NOTE

Dr. Anderson decided to become a pediatrician long before medical school, and put that goal in writing—in her fifth grade yearbook.

A fourth-generation Angeleno, she still lives in her hometown of Hancock Park. While attending Marlborough School for Girls, she volunteered at Childrens Hospital Los Angeles, and continues to share her time and skills today.

As a volunteer for Healing Hearts Across Borders, she participates in quarterly medical mission trips to provide medical care and other necessities to Tijuana's poorest residents.

Each December, Dr. Anderson co-chairs her church's Project Angel Tree program which purchases gifts for children who have a parent in prison.

In her free time, she likes to spend time with her family and friends. She enjoys cooking, hiking, reading, tennis and "taking advantage of all the cultural activities in Los Angeles."
