University of Southern California
*Recipient, Berman Pharmaceuticals
Outstanding Student Award*

M.S., Epidemiology
Stanford University

BA, Human Biology
Stanford University

SUMMARY OF EXPERIENCE

Prior to joining HMF, Dr. Hsieh (pronounced “shay”) treated patients at the Baltimore office of Johns Hopkins Community Physicians.

While living in Chicago, she was an instructor at Rush University, an urgent care staff physician at walk-in clinic, and a physician consultant dealing with Social Security and disability issues. She was also a clinical instructor for residency clinics at a medical group.

ON A PERSONAL NOTE

Dr. Hsieh is a California native who was born in Long Beach and now lives in the Pasadena area with her physician husband and two children. She enjoys volunteering at their schools as often as she can.

Her grandfather, a physician in Taiwan, may well have inspired a love of medicine. She chose family medicine while her brother became a pulmonary/critical care doctor

Outside the office, Dr. Hsieh enjoys reading, travel, skiing, snowboarding and spending time with her family.
