SUMMARY OF EXPERIENCE

Prior to joining the Huntington Medical Foundation, Dr. Turner practiced medicine in Woodland Hills, CA where he cared for more than 2,400 patients and their families.

Before starting his professional career as a physician, he did extensive research at the renowned Institute for Critical

Care Medicine in Chicago, IL. Dr. Turner contributed to a number of articles on the subjects of Cardiopulmonary Resuscitation and carbon dioxide production during cardiac arrest that were published by major scientific and medical journals.

Dr. Turner also served as a member of the ICU transport team stationed at Childrens Hospital Los Angeles and was a member of the Emergency Medical Team for Medevac Ambulance that serves L.A. County.

ON A PERSONAL NOTE

A Pasadena native, Dr. Turner was born at Huntington Memorial Hospital. With a baby on the way, Dr. Turner, his wife and daughter are looking forward to moving back to the Pasadena area.

Outside of the office, Dr. Turner is interested in computer technology, video and photo editing and golf.

Of his golf game, he says, "I love it, but have yet to find the time to get good at it!"
